

Abundance Ceremony:

Our thoughts are powerful – they create our reality – this is a fact, there is no way around it. If we focus on negative thoughts, that is what comes to us – we become a magnet for negative things to manifest in our lives. If we approach situations, projects, our work, our loved ones, even our health with enthusiasm and joy – positive thoughts backed by our emotions, we become a magnet for positive, wonderful things to come to us.

Each New Moon holds a feeling of new beginnings, of inspiration – along with those feelings is a strong power to manifest what we give most attention to – whether it is negative or positive. The Abundance Ceremony is designed to use the power of a new moon period to bring extra energy to a goal, a project or to change fear and dread to joy and enthusiasm. The purpose of this joy and enthusiasm is to bring to fruition - manifest, the goal or project.

Perform the **Abundance Ceremony** within the first 24 hours of the new moon.

Select a project you want to be successful with, or one that you are facing with fear or dread from one of the following categories:

- financial – wealth
- health
- relationship – love
- work – perfect self-expression

Items of support:

- White candle
- Abundance Journal
- Bottle of bubbles with a wand for blowing the bubbles

Ceremony:

- Light a white candle.
- Offer a prayer of intent, invite spiritual helpers: Archangel Michael, Jesus, Specific Expert Angels, Legions of Angels. Ask for their help.
- Write out the project or goal in the abundance journal by framing it in a positive way with an abundant outcome to manifest by divine right, under grace, in a perfectly wonderful way.
- Breathe deeply - Visualize success! (If feeling the success of receiving is elusive, re-evaluate the project. Find the block and create a new strategy that feels doable that generates enthusiasm from deep within.)
- Breathe deeply - Experience gratitude – give thanks!
- Continue to visualize yourself receiving – living - being success! Allow the enthusiasm, the joy to be all consuming.
- Release your intentions to the Universe by blowing it through the bubbles. Allow God and the Angels to work out the details – be OPEN to their guidance – you will receive!
- End with a prayer of gratitude.

- Each time you think of the project, approach it with this attitude of celebration.

Incorporating enthusiasm and joy into every aspect of our lives is cause for celebration – life itself becomes a celebration. Doors open, miracles manifest in the most amazing ways. The words, Life is Good really means something and is most fulfilling – we become engulfed in LOVE and it radiates out to the world engulfing others.

When we live our life purpose – LOVE – we become and remain open to receive our highest good, materially, emotionally, spiritually – we become one with the universe and reap the abundance of the universe, our highest good – we become abundant in all things...
